

CTG established international CDN partnership with Conversant to further enhance seamless global CDN solution

By optimising both China Telecom's CDN (Content Delivery

Network) resources and Conversant's CDN leading-edge technology in Asia, CTG and Conversant Solutions Ptd Ltd has established an international CDN partnership to seamlessly integrate through CDN Federation to provide a one-stop global solution for enterprise customers. The solution enables content upload, delivery, storage, transcoding, management and related services to help boosting the quality of

China's Internet content and user surfing experience, and aids local Internet companies to swiftly deliver content globally and expand overseas.

This cooperation expands CTG's CDN capacity especially in Asia, facilitated by multiple points of presence in Indonesia, Singapore, Thailand, Malaysia, Philippines, Hong Kong, Taiwan, Vietnam and Middle East, which makes it uniquely positioned to cater for Chinese Enterprises looking to penetrate or enhance their quality of delivery in these markets. It will also meet the needs of contents from China expanding abroad, and to attract foreign contents into China.

Here are the benefits you may receive from CTG's CDN solutions:

1. Enhanced end user experience
2. Reduced total cost of ownership
3. Better data distribution control and expedite time to market
4. Improved performance by moving content closer to your customers
5. Cost effective management for traffic spikes without impacting quality
